

# Hussnain Liaquat Ali

React Native Developer

[cheemahussnain155@gmail.com](mailto:cheemahussnain155@gmail.com) | +923216447958 | [Linkedin](#) | [GitHub](#) | [Portfolio](#) | Lahore, Punjab, Pakistan

## Professional Summary:

React Native Developer with **2+** years delivering cross-platform iOS & Android apps to production on Google Play Store. Proficient in Redux Toolkit, TypeScript, Firebase, and REST API integration. Reduced app load times by **25%**, resolved **95%** of critical bugs pre-release, and converted **20+** Figma screens into pixel-perfect components. Experienced in agile, cross-functional teams across healthtech, invoicing, and baby-care domains.

## Technical Skills

**Frameworks & Libraries:** React Native, React JS, Redux, Redux Toolkit, Context API, Firebase, Socket.io, Node.js, MongoDB

**Languages:** JavaScript, TypeScript, HTML, CSS, Tailwind CSS

**Integration:** REST API Integration, Axios, GraphQL, Async Storage

**Tools & Platforms:** Git, GitHub, Figma, Postman, Android Studio, Xcode

**Core Concepts:** State Management, Component Architecture, MVVM Pattern, Performance Optimization, Debugging, Problem Solving

## Work Experience:

### React Native Developer — SSQUARE PK, Lahore (Apr 2025 – Present)

- Developed Invoice Me App, a full-featured invoicing solution used by **100+** users with PDF generation and customization.
- Integrated REST APIs, improving data sync efficiency by **30%** between mobile and backend systems
- Enhanced app performance, reducing load time by **25%** through code optimization and memory management
- Implemented React Navigation stack with deep linking and AsyncStorage for offline data persistence
- Integrated push notifications via Firebase Cloud Messaging to improve user retention.
- Worked with QA team to resolve **95%** of critical bugs pre-release, improving production stability
- Ensured consistent UX across Android and iOS, reducing platform-specific issues by **20%**

### React Native Developer — TheWebieStorms Pvt Ltd, Lahore (Dec 2024 – Apr 2025)

- Converted **20+** Figma screens into pixel-perfect React Native components, improving UI consistency
- Integrated REST APIs with proper error handling, reducing app crashes by **30%**
- Improved app stability by identifying and fixing **50+** bugs through systematic debugging
- Partnered with QA team to reduce production issues by **40%**
- Followed best practices and coding standards, improving team development efficiency

### React Native Developer (Associate) — Gaint Head, Gujrat (Jan 2024 – Oct 2024)

- Built cross-platform apps from concept to functional release
- Executed Redux for state management, reducing prop drilling and improving code maintainability by **35%**
- Worked with UI/UX designers to deliver consistent design systems across **15+** screens
- Collaborated with QA to resolve **90%** of edge cases before release
- Fixed **100+** bugs and improved overall app performance and responsiveness

## Projects

### • PLUMM APP [LINK](#)

Contributed to the development of a workplace mental health platform, building features like a guided meditation player with background audio and a video consultation interface connecting users with therapists. Applied push notifications for daily wellness reminders and optimized video playback for a smooth streaming experience. Collaborated within an agile, cross-functional team to deliver high-quality features.

### • BABY APP [LINK](#)

Developed a baby health tracking tool enabling parents to monitor feeding, sleep patterns, diaper changes, and growth milestones. Integrated visual growth charts for weight, height, and overall development along with reminders for vaccinations and pediatric appointments. Designed a simple, user-friendly interface for quick data entry, receiving positive feedback from parenting communities.

### • INVOICE ME APP [LINK](#)

Built a complete invoicing solution with features to create, edit, customize, and share invoices, including PDF generation with proper formatting, company logos, and itemized tables. Enforced tax calculations, discount options, and currency formatting for professional outputs. Designed a clean dashboard with secure local storage and cloud backup via REST APIs, receiving positive feedback from small business users.

## Educations

2018-2022

**BS Software Engineering: (University of Gujrat)**

**Relevant Courses:** Object Oriented Programming, Databases, Discrete Mathematics, Data Structures and Algorithms, Operating Systems, Mobile Application Development
